

HICKMAN COURIER.

THAT GREAT SURPLUS.

The enormous amount of money accumulating in the United States Treasury, is exciting the alarm of the most intelligent people and out of Congress. What shall be done about it? The treasury of Kentucky is annually a considerable surplus, the farmers in the State would readily tell what should be done about it, and with one voice all would say—let the taxes, cease to collect any more from the people than is actually needed.

In a common sense way it looks like this same rule ought to apply to the Federal Government; and we believe nine tenths of the people, irrespective of party, would support the reduction of money that is not needed in the United States Treasury. And yet we have a proposition to be introduced to the Congress of the United States, which will reduce the Federal tax on tobacco.

The majority of the Republican party refuse to vote for a reduction, because they argue that a reduction would mean a reduction in the revenue of the Government, and would mean a reduction in the power of the Federal Government. The Democratic party, on the other hand, are in favor of a reduction, because they believe that the Federal Government should not collect more money than is actually needed.

WHAT THE HOUSE IS DOING.

The New York Herald, in summarizing up what Mr. Cleveland has done, says: "He has looked so carefully after the collection of the revenue that he has collected nearly sixteen millions more than in the previous year."

"He has looked so carefully after the expenditures that he has saved seven and three-quarter millions less than in the previous year."

A NEW SOUTH AND A NEW NORTH.

Nothing is more apparent than that the old sectional party have forever lost their power. The sectional efforts to employ their party by the aid of the Government are now a thing of the past. There is a new South and a new North, and it is ready to let the dead bury the dead, while it joins hands with all who have living and will to share its blessings.

THE TRUTH OF IT.

To claim that the representatives of the people in the national government are "bought and paid for" is to say that they are bought and paid for by the people. It is to say that they are bought and paid for by the people, and that they are bought and paid for by the people.

NO MISTAKE THERE.

Mr. Blaine proposes to visit Ireland next summer. It is a brilliant political scheme, the smartest that Blaine has invented yet. But he will be met by an prematurely cautious of his speeches. He will find audiences wherever he goes who will not be deceived by his explanation of a mistake.

ADVICE TO CONGRESS.

The first thing Congress ought to do, the most pressing, the most important thing for Congress to do, is to provide liberal help for the coast defense. Let tariff take up to transfer, but save the cities. Make the nation safe.

K. OF L. SECRETS EXPOSED.

Great excitement has been created in the ranks of the Knights of Labor at Amsterdam, N. Y., by the publication of a list of the names of the members of the order, and of the names of the members of the order.

A LONG-FEELT WANT.

There ought to be an exchange in every community for the sale of small Christmas presents.

President Cleveland is sick with the same disease that afflicted Gen. John A. Logan. Although his symptoms are not dangerous at present, yet there is much cause for anxiety, and he may recover.

MAY CLOSE DRUG STORES.

DRUGGISTS ARE AGAIN DISTURBED.

A NEW 100 LICENSE SURVIVOR.

The Legislature has again opened the liquor question. Some time ago Judge Prosser, of the County of Kentucky, issued a decision in the case of the State v. the drug stores, which was a landmark case. It was a decision in favor of the drug stores, and it was a decision that was a landmark case.

WHAT CONGRESS WILL DO.

It is not expected that any legislation will be introduced for consideration by the Senate this session.

THE HOUSE OF REPRESENTATIVES.

It is expected that the legislative work in the House of Representatives will be continued in the discussion of appropriation bills and the measure reported by the Committee on Appropriations.

MONEY FOR WATER WAYS.

The river and harbor bill, which will provide for the improvement of the waterways of the United States, is now before the House of Representatives.

Russell Osborne, a bright man, has been arrested on the charge of robbing and attempting to assassinate Mr. J. H. Evans, a prominent citizen of Woodland Mills, Tenn. It will be remembered that some time ago, a man named Osborne, of the neighborhood had sent for some medicines, and upon Mr. Evans having his house to go to his drug store, on the way he was knocked in the head, his hands were tied, and he was carried off in a wagon. The man was later in the night was found on the road side, his hands were tied, and he was carried off in a wagon. A CARD.

I take this method of informing my friends that I have secured the services of Miss Lillian Althouse, of Memphis, as assistant at Sylvan Shade Academy, the ensuing term. Miss Althouse is a lady of rare culture and ability, being graduated in education, having taken first prize in competition with the best candidates for the position of teacher, while her success in teaching has won golden opinions from the most critical.

The second term commences Monday, and desiring to make the school as successful as possible, we will exert our best efforts in the cause of "building" for the children, and for the benefit of the community.

The school will be liberally supplied with blackboards, charts, maps, cyclopedias, etc.
